Geographical toponyms contain many different information. Together with historical-geographical information, toponym is an important source for determining the trace of a first-person, migration, or other important factor of any people, tribe or other ethnic group. Student project "Geographical Survey of Touristic Objects of Sachkhere Municipality" there was a search of these toponyms.

There are many natural and cultural monuments located in the natural environment that are created for thousands of years. The nature of Sachkhere municipality is quite diverse, Accordingly geographical toponyms of this object are different and interesting. Each of them provides important information about specific places. It is necessary to study these toponyms. The role of the local population, along with various sources, is important.
